SpaceLab

Instructor

June 2014
–Present

Taught several self-designed classes made available to the general public and members of SpaceLab. Promoted classes which lead to increased interest for SpaceLab membership & class registration. Tailored classes based off consumer interest and skill level to amplify customer satisfaction. Curated an independent games section for the Chicago Southland Mini-Maker Faire.

Lunar Giant

Electrical Engineer for Project Liberty

March 2014
–June 2014

Designed & assembled the controller for Project Liberty, including documentation that lead to greater awareness and support for the project. Promoted Project Liberty at a panel about open source hardware at Indy Pop Con 2014. Project Liberty was one of 33 projects worldwide awarded in the Lulzbot 4th Annual Hackerspace Giveaway.

iD Tech Camp

Instructor

Summer 2012

Taught game design, 3D modeling and animation to kids ranging from ages 7-17 in a summer camp setting. Organized activities throughout the day to give kids a break from instruction. Catered instruction to fit the skill level of each student so that they would be able to finish their project by the end of camp. Coordinated with coworkers in order to create the best possible experience for the campers and their parents.
